ATTENDANCE

Students should arrive at school no earlier than 7:45 am. School will dismiss at 2:30 pm. Students arriving after 8:15 am will be considered tardy.

Please call us at 684-6873 the morning your child is absent. Extended absences may require a doctor's note, home visits and/or conferences.

Excused absences recognized by board policy include:

- Absence due to illness (doctor's note required after five consecutive days of illness)
- Absence due to mental health day(s)
- Absence due to a religious observance
- Absence due to family emergency
- Absence which the principal has given "prior approval" to and which do not adversely affect the student's educational progress in school.

Attendance of school is not only required by state laws but is essential for satisfactory school progress.

In 1995, the Washington State Legislature passed a law known as the "BECCA Bill," (RCW 28.A.225.151) in regard to unexcused absences. According to this law, schools are required to do the following:

- One unexcused absence: parent is notified
- Two unexcused absences in a month: a parent/school conference is required
- Five unexcused absences in a month OR
- Ten unexcused absences in a school year will be reported to the judicial system.
- After the first 10 unexcused absences, all other absences will be marked as unexcused. Therefore, it is critical that you verify any absence to the school in writing within a two-day period following a child's absence.
- If you have any questions concerning the BECCA Bill or the mandatory attendance law, please feel free to call us at 684-6873.

NOTE: Excused absences and tardiness events can also be detrimental to a child's academic success. Students who have ten or more excused absences/tardiness events per semester will be monitored for academic progress.

HEALTH

Special Health Concerns

Please inform the school if your child has any special needs or life threatening health concerns. The school nurse is available to work with students and their parents to accommodate health issues. It is especially important that we have an emergency plan for any health condition that may be life

threatening such as a food or insect allergy, asthma, seizures and diabetes. Individual health plans are written for students with special health needs. Please keep us informed if you change your address, telephone number, employer, babysitter, daycare or emergency contact.

Nurse Corp Services

Periodic vision and hearing screenings are conducted at certain grade levels each year. These are quick screenings to identify problems that might interfere with learning; they do not take the place of professional examinations by your health care provider. Parents will receive written notice of any concerns. Please contact the school nurse if you suspect your child has a vision or hearing concern.

Student Participation

Good emotional and physical health is closely related to the learning process. Students are expected to participate in all activities scheduled in the school program. Requests limiting a child's physical activity will require a statement from your physician or discussed with the school principal.

Emergency Treatment

Schools are responsible for providing first aid or emergency treatment in case of sudden illness or injury to a student. An Orient School staff member will immediately attempt to contact the parent so the parent can arrange for care or treatment of the injury or illness. When it is deemed necessary, 911 will be called.

Medication at School

Students may not self medicate during school hours. This includes over the counter medication.

If your child needs medication administered

during the school day a medical authorization form will need to be completed by your physician and the school nurse. Please contact the office for more information.

Illness

Sometimes it is difficult to decide whether a child is well enough to send to school or be kept home. If your child is not well enough to go outside, please keep them home for the day. Here are some guidelines to help you decide if your child is well enough to attend school.

Fever: Children with a temperature above 99° should not be sent to school. Children should remain home for 24 hours, fever free without medication before returning to school.

Cold/Sore Throat: Children with cold symptoms, need to stay home even if they have no fever. Colds and coughs spread quickly.

Conjunctivitis (Pinkeye): If there is any itching or drainage from the eye, children should stay home. Pinkeye is a highly contagious infection. Children may return to school after seeing a physician and starting a treatment schedule.

Chicken Pox: Physicians now recommend immunization for chicken pox (varicella) at 12 months – 18 months old. Kindergarten and 6th graders will also need to be vaccinated. Parents may provide date and age of student when they had chicken pox instead of the vaccine. The school nurse must review and approve this information. Students who contract chicken pox cannot attend school for 21 days.

Head Lice: Children with lice are excluded from school until all lice and nits are gone.

TEACHER/ PARENT EXPECTATIONS

Homework

Establishing good work habits are essential to the academic success of students. Daily homework by staff members uses the following criteria:

- Homework shall consist primarily of a review of information which has been thoroughly instructed in the classroom
- Homework assignments should not take more than 20 to 60 minutes to complete, depending on the grade level
- Parents shall be informed of missing homework assignments
- Students who do not complete their homework assignments will be encouraged to do so through such means as missing recess, etc.

Reporting Progress

Teachers send student report cards home to parents quarterly. Parent/ teacher conferences will be scheduled at the first and third quarter reporting period. Report card and portfolio discussions will occur at that time. The final report card will be sent home with your child on the last day of school. Progress reports will be sent home on a regular basis.

Communication and Involvement

Communication and cooperation between the school and home is a key component to the success of your child's school experience. Please contact your child's teacher or the school's office when you have questions or concerns. Your involvement, help and support are essential elements to your child's educational success. *All parents have the right to request and receive information on*

the qualifications of their children's teachers.

Field Trips

When field trips are scheduled, teachers send permission forms home with students. These permission forms must be signed and in the teacher's possession before the student can participate in the field trip activity. Students not returning the permission form will remain at school. No exceptions.

SPORTS

Students playing competitive sports must have a signed physician's sport physical. These physicals are valid for 24 months.

Students will be transported to and from games by bus unless there is a Parent Release form given to the coach prior to game day.

Student Behavior and Eligibility The Orient School Mission states that we are committed to the academic achievement and social well being of every child.

Students will be notified every week of their current eligibility status. If they are not meeting academic standards with a "C" grade or higher in each subject, they will be deemed ineligible to participate in any extracurricular program until the next weekly progress report. This will include, but is not limited to: all sports, clubs and/or annual events that have had eligibility requirements attached to them. If a student is on "academic probation" they will be allowed to attend practices only for the first week. If they are on academic probation for a second week, they are not allowed to attend games or practices. Students will also be ineligible if they have been referred for discipline issues and/or given consequences.

After-School Pickup: Students will be released after busses are loaded.

Non-Parent Pickup: If anyone other than a parent, immediate family member or an

emergency contact is picking a child up at any time; we must have a signed, dated note or a phone call from the parent or guardian giving permission. The designated person must come to the office and sign the child out.

Early Pickup: If a student needs to leave school early, the parent must come to the office first before picking up the student.

Closed Campus: Students are never to leave the school premises during the official school day without written permission from home or school. Exterior doors will remain locked during school hours. A door bell is available at the main entrance and we invite parents at any time.

TRANSPORTATION

Snow Days/ Severe Cold

Excessive snowfall overnight and hazardous road conditions may delay buses until conditions are safe. In the event of heavy snow or severe cold, listen to the Spokane or local radio or TV stations for announcements regarding school closure or late start information. Phone calls will also be made to bus riders.

ORIENT SCHOOL RULES

Children attending Orient School need to follow three basic rules while learning.

Responsibility – *Children will practice safety and good behavior at all times.*

Effort - *Children will accomplish the academic goals by listening, following directions and by completing assigned work.*

THE ORIENT SCHOOL DISCIPLINE PROCESS

Introduction:

At Orient Elementary School, our belief is that students can be held accountable for their behaviors while experiencing opportunity to reset, improve and make amends. Mistakes are opportunities to learn. Most behaviors at our school are managed at the classroom level by teachers using Positive Behavior Interaction Supports and other classroom management systems. Teachers regularly communicate with families and work with them to encourage students as they grow into responsible, respectful and ready community members.

When more structured disciplinary action is needed, the staff use a combination of educational and behavioral interventions in a culturally responsive way to address student behavior. The goal of any disciplinary response is to encourage students to act in ways that enable all staff and students to be safe, learn without distraction, and feel a sense of community.

- **Office Referral** – This document is completed by a staff member and describes the student behavior requiring administrative action. To assist in determining consequences, the staff member identifies interventions that have been tried before for this or similar behaviors. All suspensions are documented in a referral.

Each student's situation and each event are carefully considered and investigated before a consequence is determined.

The consequence for the first behavior offence may be different than if there is a repeated pattern of misconduct. Some incidents are more disrespectful, disruptive, or unsafe than others. The Orient Administrative staff may find it necessary to bypass some discipline steps and move directly to higher-level consequences.

As often as possible, we work collaboratively on consequences with families, teachers and impacted students to ensure that all continue to feel safe, cared for and welcome. ***Students are encouraged to restore relationships with those who have been negatively impacted by their actions, and are guided through a reflection and mediation process to do so.***

Discipline Responses That May be Considered After an Office Referral is Made:

- **Lunch Detention:** Held on campus during the student's lunch; students get lunch at Food Service and reports to their classroom. Students spend the entire lunch period in the classroom. Students are expected to reflect on the reasons behind their behavior choices, determine who/ what has been hurt, identify alternative choices that could have been

made, and plan to make amends with those who were impacted (as appropriate).

- **School Service:** Service work is sometimes assigned to make up for poor behavior choices. Outside of class time, students do tasks in the cafeteria, a classroom, the office, the library, or elsewhere on campus. The type of service performed is suited to the individual and the situation for which the service is assigned. It can be used in lieu of financial restitution in some situations.
- **In-School Suspension (ISS):** Students may be assigned ISS in place of out-of-school detention; ISS is an opportunity for a student to serve a suspension and still complete school work in a supervised school setting; students who do not behave appropriately in ISS will be sent out of school for suspension.
- **Short-Term Suspension (SS):** Suspension from school for less than 10 school days; students on STS are not permitted on school grounds and may not attend school-related activities during suspension. Students are encouraged to keep up on work missed during suspension, and students will be given the opportunity to make up missed work that has a substantial impact on their semester grade.
- **Long-Term Suspension (LTS):** Suspension from school for longer than 10 school days and up to the end of the current semester; students on LTS are not permitted on school grounds and may not attend school-related activities during suspension.
 - **Emergency Exclusion (EE):** Temporary removal from school in a situation where the principal determines that the student's presence at school presents an immediate or

continuing danger to themselves or others at school. An EE will be converted to a suspension or expulsion after a meeting with the principal. Students on EE are not permitted on school grounds and may not attend school-related activities during the exclusion.

- **Expulsion:** Removal from school for an undetermined period of time; reserved for severe violations of law and board policy; students who are expelled from school must apply for readmission with the Superintendent.

Search of Students: School administration has the right to search a student's personal effects (pockets, bags, locker, etc) if there is reasonable suspicion that the student has illegal, unauthorized, or contraband items. Students who refuse to submit to a search may receive disciplinary action or police referral. Parents will be notified any time their student has been searched. The search of electronic devices is detailed in Orient School Board Policy 3245P.

Seizure of Personal Belongings: School staff have the right to take personal belongings from students that are illegal, unsafe, or disruptive to the learning environment. Illegal items will be given to the police, and other items will be available for direct parent pick-up.

Restitution: This is when property is damaged / stolen OR when a person is hurt and the person(s) responsible compensate for the loss in the form of money or service work. The school typically cannot get involved in personal property issues among students; but, depending on the situation, a police report can be filed.

Orient Elementary School Board Policies 3240 and 3241 provide more detailed information regarding discipline and consequences. Policies can be accessed from the district website at www.orientdsd.org

2. Has the effect of substantially interfering with a student's education
3. Is so severe, persistent, or pervasive that it creates an intimidating or threatening educational environment
4. Has the effect of substantially disrupting the orderly operation of the school.

NOTICE TO STUDENTS, STAFF, AND COMMUNITY

Please note: full, detailed copies of the ORIENT School District policies are on file at the district office and copies are available upon request.

The Orient School District is committed to creating a positive and productive working and learning environment free of discrimination. The District prohibits discrimination/sexual harassment/harassment/intimidation/bullying of its employees or students, whether committed by a co-worker, supervisor, subordinate, contractor, volunteer or student. The District's full policies and procedures are on file in our school building for staff, students, parents or community members to view.

The Orient School District complies with all federal and state rules and regulations and does not discriminate on the basis of race, creed, color, national origin, gender, sexual preference, marital status, age, or disability with regard to all students who are interested in participating in educational programs and/or extra-curricular school activities, admission, access to services, treatment or employment and all opportunities in programs and activities. Inquiries regarding compliance and/or grievance procedures may be directed to the school district. Individuals who may need auxiliary aids, accommodations or modifications for communications, employment, programs, and/or services (including students who meet 504 criteria) are asked to make their needs and preferences known to the Principal at 684-6873.

In accordance with Orient School District Policy, the unlawful possession, use and/or distribution of illicit drugs and/or alcohol or any other illegal chemical substance on school premises or during any school related activity is prohibited. Since drug, alcohol, and tobacco use is illegal and interferes with both effective learning and the healthy development of children and adolescents, the district has a fundamental legal and ethical obligation to prevent drug use and to maintain a drug-free educational environment. Staff and students may be subject to disciplinary action or prosecution for violation of this policy. To ensure the safety, health and well being of all students and staff, the Board has developed procedures for a comprehensive substance abuse prevention program that in collaboration with the ESD 101, addresses prevention, intervention, referral, and other necessary corrective actions. Compliance is mandatory and will be enforced.

In accordance with Orient School District Policy, the use of any tobacco product on school district property, which includes school buildings, grounds, district owned vehicles

and school buses, is prohibited. This holds true for employees, students, parents, visitors, spectators, and patrons. Staff and students may be subject to disciplinary action for violation of this policy. Tobacco is included in our comprehensive substance abuse prevention program that in collaboration with the ESD 101, addresses prevention, intervention, referral, and other necessary corrective actions.

In accordance with Orient School District Policy and state law, it is prohibited for any person to carry a firearm or any dangerous weapon (including toys that resemble weapons) on school premises, school provided transportation, or areas of other facilities being used for school activities. RCW 9.41.280 states: "...any violation of subsection (1) of this section by elementary or secondary school students constitutes grounds for expulsion from the state's public schools...an appropriate school authority shall promptly notify law enforcement and the student's parent/guardian regarding any allegation or indication of such violation.

The Orient School District uses Integrated Pest Management (IPM) modeled after Environmental Protection Agency recommended guidelines for the control of structural and landscape pests. IPM coordinates the use of non-chemical methods along with all available pest control methods. These include pruning, using disease resistant plants, and the judicious use of chemicals that are deemed the least hazardous to human health, and least damaging to the environment. A commercial applicator or a licensed district employee applies chemicals. A notice will be posted in the school's main office 48 hours prior to the application of any biologic or chemical pesticide. It will provide the reason for application and the name of the product to be used. For individual pre-notification, please call the school and ask to be placed on the pesticide pre-notification list. Notification procedures do not apply to emergency applications to school facilities for the control of any pests that pose immediate human health or safety threats.

Orient School District Policy outlines information related to student records, including, but not limited to student/parent access to records and provides public access to district records according to the procedures developed by the superintendent and periodically reviewed by the board.

The Federal Family Educational Rights and Privacy Act (FERPA) permits a school district to release "directory information" about a student unless a parent/guardian chooses not to have it released. Parents/guardians receive a release form when enrolling their child in school and each fall parents/guardians are given a form to update. If the parent/guardian does not return the document, then it is assumed that it is okay to release information. If you

mark "no" for any of the items on this form, we will honor that until you give us permission, in writing, to release your child's name or photo. Forms are available year-round at the District office.

The District has developed an Asbestos Management Plan for Orient School, as required by the Asbestos Hazard Emergency Response Act (AHERA) of 1986. The act requires schools to be inspected to identify any asbestos-containing building materials, and for any such suspected materials to be located, sampled (or assumed), and rated according to condition and potential hazard. Every three years the district conducts a re-inspection to determine whether the condition of the known or assumed asbestos-containing materials has changed, and to make recommendations on managing or removing the materials. A walk-through inspection is also made every six months.

It is the intention of the district to comply with all federal and state regulations controlling asbestos, and to take whatever steps necessary to ensure students and employees a healthy and safe environment in which to learn and work. AHERA manuals are available in the District office.

Under the No Child Left Behind Act, parents and students in schools that receive Title I dollars have the right to request information regarding the professional qualifications of classroom teachers. For more information, contact the Principal at 684-6873. Orient School is Title I School wide school and as such, is required to annually review and revise its School wide Plan along with Orient's Title I Parent Involvement Policy at the SIT meeting at the first of every year. Parents and students have the right to attend and participate in the development of each document. Dates and times will be posted at least 7 days before this meeting.

Special Education services are offered to student's age's birth to 21 who meet state and federal guidelines and are in need of specialized education programs. The Orient School District uses a process called "Child Find" to locate these students (see Child Find link). If you suspect a student may be in need of these services, you may make a referral by contacting Cher Belcher at 684-6873.

In addition to qualifying for the District's Highly Capable Program by meeting District policy criteria, students may be nominated by teachers, parents, peers, and members of the community to qualify for the program. Nominators will complete a referral form available at the District office, and teachers will provide information that includes scores on statewide and local assessments, classroom performance and general achievement levels. A District team will screen each referral. If additional assessments are deemed necessary, the principal or designee will obtain written parental permission prior to administrating them. The District will notify parents and obtain their permission

before their child becomes involved in the Highly Capable program. Parents shall receive a full explanation of the procedures for identification, program options, and the appeal process. Parents will be involved in the development of their student's education plan and its review.

Prior to attendance at school, families with a child having a life-threatening health condition such as a severe allergy, diabetes, asthma, or a severe seizure disorder are required to contact the school and present any medication or treatment orders necessary for their child's safety at school. Life threatening means that without planning, adequate supplies, medication, or treatment orders the child could be at risk of death at school. For such students, the school nurse will develop an individual emergency health care plan that will be kept on file in the District office and adhered to as written. In accordance with Board Policy, any student having a life threatening health condition may be excluded from school if provisions listed above are not met and provided with an alternative form of education.

In an effort to keep parents informed of the qualifications of teachers and para-eds, the Every Student Succeeds Act (ESEA) allows parents to inquire at school whether their child(ren)'s teacher(s) and para-educators have met State qualifications and certification requirements for the grade level and subject taught. Parents may inquire whether a teacher is under emergency or conditional certificate through which State qualifications were waived, and they may request information about undergraduate or graduate degrees the teaching staff member holds, including graduate certificates and additional degrees and major(s) or area(s) of concentration. Parents can also ask about paraprofessionals working with your child in reading, writing, and/or mathematics. We can tell you whether they have qualifications and/or licensing requirements. Orient School District annually conducts a review of assignments and qualifications.

In addition to the policies that are directly referred to in this notice, the district would also like to make you to review the information in the Orient Family/STUDENT Handbook and the Orient School Website.

If you have any questions, please call the District Office at 684-6873.

Orient School District does not discriminate in any programs or activities on the basis of sex, race, creed, religion, color, national origin, honorably discharged veteran or military status, sexual orientation, gender expression, gender identity, the presence of any sensory, mental, or physical disability, or the use of a trained dog guide or service animal and provides equal access to the Boy Scouts and other designated youth groups. Orient School | 2022-2023 CALENDAR

September 2022

Dear Parents:

Your child has the opportunity to receive an electronic network account or access, and needs your permission to do so. Among other advantages, your child will be able to communicate with other schools, colleges, organizations and individuals around the world through Internet and other electronic information systems and networks. Internet is a system which links smaller computer networks, creating a large and diverse network. Internet allows your child, through electronic mail (e-mail) and other means to reach out to many other people to share information, learn concepts and research subjects. These are significant learning opportunities to prepare your child for the future.

With this educational opportunity also comes responsibility. It is important that you and your child read the enclosed informed consent form, school district procedures and other material, and discuss it together. When your child is given an account and password to use on the computer, it is extremely important that the rules are followed. Inappropriate use will result in the loss of the privilege to use this educational tool, and other disciplinary action if appropriate. Parents, remember that you are legally responsible for your child's actions.

Please stress to your child the importance of using only his or her account password, and of keeping it a secret from other students. Your child should never let anyone else use his/her password to access the network. Your child is responsible for any activity that happens in his/her account.

We have established procedures and rules regulating the materials that students may search for on the network, but please be aware that there is unacceptable and controversial material and communications on the Internet that your child could access. It is not possible for us to always provide direct supervision of all students. We cannot filter material posted on network-connected computers all over the world; we encourage you to consider the potential of your child being exposed to inappropriate material in your decision of whether or not to sign the informed consent form.

We also reserve the right to review e-mail sent or received on the district system to improve student safety and system integrity, and you and your child must waive the copyright on any material posted through the network.

If you have any questions, please contact me at (509) 684-6873. If you want your child to have the opportunity to receive an Electronic Network account or access, please return signed informed consent forms to us as soon as possible.

Sincerely,

Sherry Cowbrough
Principal

Further, my child and

I agree to abide by the District's Policy and Procedures for Electronic Information Systems, which we have reviewed and understand, and we acknowledge that failure to comply with the policy and procedures may result in revocation of network use privileges. My child and I acknowledge and agree that Orient School District has the right to review, edit or remove any materials installed, used, stored or distributed on or through the network or District's system including e-mail and other electronic messages and we hereby waive any right of privacy which my child or I may otherwise have into such material.
